1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

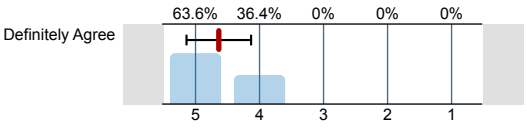

- He explains each and every concept and simplify it till we understand it.
- He is extremely passionate and tries very hard to explain to us.
- He tried his best to address all our questions and queries to leave the room understanding the concepts of the Psets in a simplified manner.
- His explanation was very clear.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- He mostly came 12-15 min late to his drop-in session on friday, leaving us only for 45-50 minutes.

  Maybe you could increase the drop in to 1.5 hours to account for such time wastage.
- He sometimes aloocated too much time for explaining the first part of P set. I think he may be able to improve time management more.
- It would be better that the teacher be more aware of what was given in the lecture each week to prepare the relevant content and highlight the provided case studies accordingly.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
